WARRANT FOR ANNUAL TOWN MEETING

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

To any of the Constables of the Town of Wayland, in said County:

GREETINGS:

In the name of the Commonwealth you are required to notify and warn the inhabitants of said Town qualified to vote in town election to meet at their respective polling places on

MONDAY, MARCH 2, 1942

at six o'clock in the forenoon, there and then to bring in their ballots for a Moderator, Town Clerk, one Selectman, a Treasurer, a Collector of Taxes, a Surveyor of Highways, a Tree Warden, seven Constables, all for one year.

One Selectman for two years.

One Selectman, one Assessor, one member of the School Committee, one member of the Board of Public Welfare, one member of the Board of Health, one Cemetery Commissioner, one Water Commissioner, one member of the Park Board, two members of the Planning Board, two Trustees of Public Library, one Commissioner of Trust Funds, all for three years.

All the foregoing to be voted on the official ballot. The polls will be open at 6:00 o'clock in the forenoon and will remain open continuously until 6:00 in the afternoon, when they shall be closed.

And you are required to notify and warn the inhabitants of said Town qualified to vote in Town affairs to meet at the Town Hall on

WEDNESDAY, MARCH 4, 1942

at 7:45 P. M., then and there to act on the following articles.

Article 1. To hear reports of the Town officers, agents and committees, and act thereon.

Article 2. To choose all necessary Town officers, agents and committees not elected by the official ballot.

Article 3. To grant money for necessary Town purposes.
See Finance Committee's Report.

Article 4. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1942 and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year in accordance with Section 17, Chapter 44 of the General Laws.

The Finance Committee recommends the approval of this article.

Article 5. To see if the Town will appropriate \$85 for general improvement in any of the Cemeteries, same to be taken from money in the Town Treasury received from the sale of Burial Lots in 1941 in accordance with Chapter 114, Section 15, of the General Laws, or do or act.

The Finance Committee recommends the approval of this article.

Article 6. To see if the Town will appropriate for: (1) Water Main Extension Notes Maturing in 1942—payment of principal—\$3,000; (2) Water Main Extension Notes Maturing in 1942—payment of interest due in 1942—\$405; (3) Painting of the water tank located on Reeves' Hill—\$3,000; (4) Water Department Maintenance—\$6,557.21—the entire \$12,962.21 to be taken from Water Available Surplus, or do or act.

The Water Department expenses, previously covered by a number of articles, have been combined this year to help shorten the Warrant. The painting of the tank on Reeves' Hill is the only matter requiring comment. The Finance Committee, with the Water Board, inspected the tank and found that the interior has not been painted for nine or ten years, with the result that a thorough painting job is needed at this time to avoid rust and deterioration. The job calls for sand-blasting and three coats of special paint. From a tentative bid supplied by a specialist in this type of work, it is estimated that the cost will come to between \$2,500 and

\$3,000. The work will take about three weeks and it should be done in the spring when water consumption is at a minimum, because the pumps will have to be operated steadily while the tank is empty and the work is in process.

The Finance Committee recommends the approval of this article.

Article 7. To see if the Town will appropriate a sum of money for the purchase of: (1) a one-half ton pick-up truck, (2) a one and a half ton dump truck, (3) a blade for snow removal—these pieces of equipment to be for the Highway Department, and in connection with the purchase thereof, will authorize the Highway Surveyor, with the approval of the Board of Selectmen, to sell, trade or otherwise dispose of the 1934 Ford pick-up truck and the 1935 Ford dump truck, the sum of money for the purchase thereof to be taken from Road Machinery Fund, or do or act.

The request for the purchase of this equipment is in accordance with the replacement policy for the Highway Department, jointly arrived at by the Highway Surveyor and the Finance Committee, and is a part of a program by which the trucking equipment will be traded in hereafter on a basis of one truck a year. If the schedule is followed, repair costs should be reduced and regular replacements will keep the equipment up-to-date. The present 1934 pick-up truck has been driven about 90,000 miles and the 1935 dump truck about 70,000 miles. They have out-lived their useful life and the cost of maintenance is disproportionately high. The Finance Committee feels that the two trucks asked for should be purchased at this time, and, based on bids which have been received, feels that both can be purchased for an expenditure of about \$2,500. To equip the truck for snow removal work, \$400 should be added for a new blade. Rental received from the use of Town-owned machinery while working on Chapter 90 projects, both construction and maintenance, in the year 1941 produced a revenue of about \$3,000, now in Road Machinery Fund. In other words, an amount equal to about one-half of the total cost of the grader purchased last year has come back into the

Town Treasury from the joint Town, County and State Chapter 90 work.

The Finance Committee therefore recommends the transfer from Road Machinery Fund the sum of \$2,900 for the purchase of the two trucks and plow, as above stated, and in connection therewith, the trade-in of the present equipment, the purchase to be made by the Highway Surveyor, with the approval of the Board of Selectmen.

Article 8. To see if the Town will appropriate and assess a sum of money for the defense of the Town, said money to be expended by the Defense Committee under the supervision of the Board of Selectmen, or do or act.

The Finance Committee feels that the Town is indebted in no small measure to the Defense Committee and to all who have assisted in the program of education and organization of the townspeople in connection with civilian defense. Although there has been a diversity of opinion as to the necessity for some of the various measures being taken, the Defense Committee has steadfastly gone ahead with its preparations and has voluntarily given much time, energy and thought to the matter. The Chairman is to be commended particularly for the job which he is doing. Many towns have been asked for ridiculously large appropriations for defense without adequate explanation as to what the funds will be spent for. In contrast, your Defense Committee has submitted a carefully detailed budget, and after extended conferences with the Finance Committee, the amount here recommended has been mutually agreed upon. It would seem that \$2,500 would be adequate to cover the expenses as the Defense Committee now sees them. This amount is in addition to and separate from: (1) \$1,225 in the budget for certain equipment for the Fire Department; (2) \$500 for the maintenance and use of meeting facilities for various defense activities; (3) \$100 for equipment to convert the Town sprayer into auxiliary fire equipment and (4) an extra sum of money held in the Reserve Fund for this use. The Finance Committee feels that there should be appropriated without stint whatever amounts are necessary for the proper protection of the

Town. The defense plans should, however, be based on the precautions necessary for a sparsely settled country town, rather than on the requirements of a congested, industrial city area, and appropriations for defense should be made accordingly.

The Finance Committee therefore recommends that there be appropriated and assessed the sum of \$2,500 to be used for defense purposes by the Defense Committee, with the approval of the Board of Selectmen.

Article 9. To see if the Town will vote to change the office of Highway Surveyor to that of three Road Commissioners, pursuant to Chapter 41 of the General Laws, the term of each Commissioner to be for three years and to be effective with the annual election in 1943, or do or act.

The operation of the Highway Department is naturally followed closely each year by the Finance Committee because it is one of the three principal departments which expends the bulk of all Town money. Under the present arrangement, the full responsibility for the administration of the department lies in the hands of a single person, the Highway Surveyor. In no other department of Town government do we burden a single individual with as much responsibility. The amount of money invested in highway equipment is in the vicinity of \$30,000 and the amount expended annually for roads varies from about \$25,000 to \$60,000. The Highway Surveyor is elected annually, and as a result, he is under constant pressure to obtain his own re-election and thereby has difficulty in turning down special requests made not necessarily for the benefit of the Town as a whole. His job is to plan the work of the department, hire the necessary help, see to the maintenance of his equipment and keep the various branches of the department within its budget. In addition, he is supposed to supervise the actual work so that the Town will receive full value for the expenditure of its money. It appears obvious to your Finance Committee that one who has to seek election each year cannot properly carry through this job with the continuity, economy and fair-mindedness which the job really calls for. An examination of the set-up under

which other departments operate points out clearly the desirability of the department's being supervised by a three-man board. Those boards having charge of the Town's principal expenditures all have at least three members: the Selectmen, the Schools, the Welfare, Water, Cemetery and Park Departments and the Board of Health, and both the Library and Planning Boards have six members each. The actual work of most of these departments is normally carried out by paid employees hired by the departments, operating under the general supervision of the boards. Fully recognizing the fact that several years ago the Town deemed it inadvisable to place control of the highways in the hands of the Selectmen, your Finance Committee feels that the substitution of a three-man board of Road Commissioners in place of a Highway Surveyor would be a step in the direction of good business, would be more apt to produce continuously good administration of the Highway Department and would, without question, make for cheaper operation. If such an arrangement were approved, it would not take effect until March, 1943, at which time the Town would vote for three commissioners, and thereafter vote for but one commissioner a year for a three-year term. The board could be unpaid and could function in much the same manner as the other boards now so elected. The responsibility of the department would be borne by the board and the work would be done by a superintendent hired by them. The superintendent would have assistance in the planning of his work, but would be relieved of any political obligations in connection with an election and would be free to carry out the highway work on the basis of the best interest of the Town. The Finance Committee has discussed the matter with the present Highway Surveyor who joins the committee in endorsing the matter covered by the article.

The Finance Committee therefore recommends the approval of this article.

Article 10. To see if the Town will vote to appropriate and assess a sum of money to be used for the preparation of Assessors' Maps, the surveying and compilation to be done under the joint supervision of the Planning Board and the Board of Assessors, or do or act.

This is a matter which has been brought to the attention of the Town on several previous occasions and which has steadily been advocated by the Planning Board and Board of Assessors. A number of problems arising out of the building activity of the last three years have brought forth the necessity for starting on this work at the earliest possible date. The present membership of the Board of Assessors would be unusually helpful in forwarding the progress of the work if begun now and much valuable information not now recorded would probably be lost if the matter is deferred too long. Similar maps have been prepared for many neighboring towns. They are invaluable in the work of the Assessors, the Board of Survey and the Planning Board and would be of real help in the work of certain other departments. In addition, the preparation of them would tend to make for more equitable assessment, and if the experience of other towns is a guide, properties which have been overlooked in assessing would be turned up. The maps would be of permanent value in that they would tie in with recent survey work done by the U. S. Geodetic Survey, the Land Court and the State and County Highway Departments. Estimates of the total cost are in the neighborhood of \$15,000. The work should be done over a period of years, and for the initial year, the Finance Committee feels that an appropriation of \$2,000 will be adequate.

The Finance Committee therefore recommends that there be appropriated and assessed the sum of \$2,000 for the preparation of Assessors' Maps, the work to be done under the joint supervision of the Planning Board and the Board of Assessors.

Article 11. To see if the Town will vote to accept as a public town way under the Betterment Act, Lakeview Road from Cochituate Road to Crest Road, in that part of the Town known as Cochituate, as laid out by the Board of Selectmen, and as shown on a plan or plans on file with the Town Clerk; to authorize the Board of Selectmen to acquire any necessary land by eminent domain, purchase or otherwise; and to appropriate and assess a sum of money to cover the acquisition of such land and the construction of said way or any part thereof, or do or act.

The project called for in this article and in the succeeding one has been considered by the Town on previous occasions, but this is the first time that the matter has been brought forward on a proper basis. The Finance Committee has steadily felt that there is only one proper arrangement by which work should be done on private ways and that is for the owners of the abutting property to petition for the acceptance of their road under the Betterment Act. Such petition has now been received, indicating a willingness on the part of the owners to share with the Town the expense of putting the road in proper permanent condition. This road is 1,050 feet in length, 40 feet in width, and the work calls for the construction of a 20-foot travelled way at a cost of about \$2,700. The property along the road has been fairly well developed, there now being nineteen houses. The Finance Committee feels that the Town should steadily encourage owners of property on private ways, who are willing to stand their share of the cost, to petition for improvements under the Betterment Act.

The Finance Committee therefore recommends: (1) that the Town accept, under the Betterment Act, Lakeview Road from Cochituate Road to Crest Road, as shown on plans of Everett M. Brooks dated January, 1942 now on file with the Town Clerk; (2) that the Town authorize the Board of Selectmen to acquire any necessary land by eminent domain, purchase or otherwise and (3) that the Town appropriate the sum of \$2,700 to cover the acquisition of such land and the construction of said way, the work to be done by the Highway Surveyor under the supervision of the Board of Selectmen.

Article 12. To see if the Town will vote to appropriate and assess the sum of \$2,200 for the installation of a 6-inch water main on Lakeview Road for a distance of 1,050 feet, with two hydrants, three gates and necessary fittings, or do or act.

This project is directly related to that covered by the previous article and should be dependent upon its acceptance by the Town. There is now a 2-inch water main in this road which should be replaced with a line of sufficient capacity for fire protection (6-inch) before

the road is surfaced under the Betterment Act. There are at present nineteen water takers in a distance of 1,050 feet, the potential number of which will be increased as building continues.

The Finance Committee therefore recommends the approval of this article, the work to be done under the supervision of the Water Department.

Article 13. To see what sum, if any, the Town will vote to transfer from available funds to meet any of the appropriations made under the foregoing articles.

The Finance Committee recommends the approval of such action as may be suggested by the Town Treasurer.

Article 14. To see if the Town will appoint a committee to study the conditions existing in Dudley Pond due to growth of weeds therein, said committee to report at the next Annual Town Meeting.

The weed condition in Dudley Pond has steadily become more serious and if the growth is not checked, the values of all property in the surrounding area, which is one of substantial assessment, may be jeopardized. This is a matter in which the whole Town has a real interest, and the Board of Selectmen, realizing the importance of this matter, has already appointed a committee whose work, it is felt, should be continued and crystallized for action by the Town.

The Finance Committee therefore recommends that there be appointed a committee of five to look into the matter and report at the next Annual Town Meeting, the committee to consist of: one member of the Park Board, one member of the Water Board, one member of the Board of Assessors and two others to be chosen by the three so designated.

Article 15. To see if the Town will vote to accept the provisions of Chapter 136, Sections 7 & 8 of the General Laws as amended, or do or act.

This section gives to the licensing authority, the Board of Selectmen, the right to issue to persons who are retail dealers in ice cream, confectionery, soda water or fruit, licenses to sell such articles on Sunday.

The acceptance of this section is requested by the Chief of Police to better protect such selling as is now done on Sunday by established local businesses.

The Finance Committee recommends the approval of this article.

Article 16. To see if the Town will amend its By-laws by adding to the present By-laws a new article, substantially as follows: "The Board of Selectmen shall have the authority to license suitable persons to be collectors of, dealers in or keepers of shops for the purchase, sale or barter of junk, old metals or second-hand articles, may make rules and regulations relative to their business, and may provide for the supervision thereof. The Board of Selectmen may make additional rules, regulations and restrictions which shall be expressed in all licenses. Said licenses may be revoked at pleasure, and shall be subject to Sections 202 to 205 inclusive of Chapter 140 of the General Laws, relating to the issuing of certain licenses, as provided in the General Laws, Chapter 140, Section 54, except that societies, associations or corporations organized solely for religious or charitable purposes and their agents shall not be required to pay a fee for such licenses," or do or act.

The passage of this by-law, provided for in Chapter 140, Section 54 of the General Laws is likewise requested by the Chief of Police, and appears to be a proper request to give the necessary authority to control the conduct of this type of business.

The Finance Committee recommends the approval of this article.

Article 17. To see if the Town will accept any or all of the following conveyances to the Town or take any other action in regard thereto: (1) Conveyance of drainage easement and certain highway rights by Lillian C. Goehring, dated July 2, 1941, recorded with Middlesex South District Deeds, Book 6520, Page 135. (2) Conveyance of certain rights by O. Cameron Biewend dated July 18, 1941, recorded with said Deeds, Book 6519, Page 21. (3) Conveyance by deed of Harold W. Ward and Rose C. Ward, individually and as joint tenants, dated March 22, 1941, recorded with said Deeds, Book 6479, Page 349. (4) Conveyance by deed of Katherine D. Bennett, Executrix to E. Sanderson, et al, for life with remainder to the Town dated June 17, 1939, recorded with said Deeds, Book

6316, Page 6. (5) Conveyance by deed of Emma M. Jones and Ida G. Jones, dated January 29, 1942, recorded with said Deeds, Middlesex South District Registry. (6) Conveyance of certain rights by indenture of Ethel Edwards, et al, dated December 2, 1940, recorded with said Deeds, Book 6547, Page 561, and also registered in the Registry District thereof on October 27, 1941.

The acceptance of the conveyances here listed is requested by the Town Counsel. The first covers drainage easements and highway rights in connection with recent reconstruction and drainage of Old Connecticut Path. The second covers recent installation of a water line under which the Town would have the right to enter upon private land to service the line, hydrants, etc. The third covers an exchange of land at the junction of Hemlock Road and Lake Path in connection with the improvements made on Lake Path last year. The fourth and fifth cover the acceptance of deeds to property, in accordance with the recommendation of the Welfare Department. The sixth covers the acquiring of certain rights and easements in Winthrop Road by the Town in connection with recent developments made on the road in accordance with plans accepted by the Board of Survey.

The Finance Committee recommends the approval of this article.

And you are required to serve this Warrant by posting copies thereof, attested by you, at the Town Hall, at each Post Office in Town, and at the Legion Hall, at Cochrane, seven days, at least, before the time of holding said election.

Hereof fail not and make due return to this Warrant with your doings thereon to the Town Clerk on or before March 2, 1942.

Given under our hands and seal this ninth day of February in the year of our Lord one thousand nine hundred and forty-two.

WILLIAM F. HYNES,
JOHN W. LEAVITT,
WILLIAM A. LOKER,

Selectmen of the Town of Wayland.

A true copy, attest:

Constable of the Town of Wayland.

REPORT OF THE FINANCE COMMITTEE

The function of your Finance Committee is to review and consult with department heads their estimated requirements for the ensuing year and make recommendations thereon to the Town. In arriving at its conclusions, your Committee tries to take into account change, growth and relative importance of the work done by the various departments. It also tries to see that the total amount of expenditures are so controlled as to produce a relatively constant tax rate from year to year.

The Town's business for the year 1941 was carried through by the department heads well within the budgets voted last year. This was accomplished without calling an extra town meeting, without carrying over unpaid bills and without the use of the full amount of the Reserve Account, despite a number of unexpected expenditures.

For 1942, the expenditures recommended under the budget by the Finance Committee show an increase of \$22,000, following an increase last year of \$12,200. The principal increases are as follows: (1) \$7,000 additional for Old Age Assistance, as a result of liberalization by the State of amounts to be paid to individuals; (2) \$4,000 for Schools, covering both operating costs and salary adjustments; (3) \$3,000 for the Highway Department to provide for adjustment in wages and operating costs; (4) \$1,200 for the Fire Department, for the purchase of necessary equipment incidental to, but not directly connected with, defense and not provided for under the article for defense; (5) \$1,700 for various defense items included under departmental expense; (6) \$1,300 for hose tower construction and exterior painting at the Town Hall; (7) \$1,000 for rehabilitation work at the North Cemetery and (8) \$2,000 for the Reserve Account, for unforeseen emergencies.

The amount of appropriations affecting the tax rate recommended under the articles is the smallest in the last ten years and is but \$9,400. This represents a decrease of \$12,800 over last year. The citizenry and department heads are again this

year to be commended for refraining from asking for special appropriations under articles.

The combined appropriations recommended under the budget and articles for the year 1942 are \$9,200 in excess of the amount recommended for 1941, and will produce an increase of approximately \$2.00 in the tax rate, unless at the time of the meeting there are sufficient funds available from other sources to offset in part or in full the increase.

In making its recommendations for the current year, your Finance Committee has assumed that the Town wants to provide for normal, routine administration, yet it feels compelled to call to the attention of the townspeople that, as a result of the war and its probable effects upon their businesses, they may well have to be ready to curtail very drastically the operation of some of our departments upon rather short notice.

The Finance Committee feels that there are a number of matters on which it should report to the Town. (1) The emergency created by the war necessitates expenditures for civilian defense and amounts aggregating about \$4,500 have been recommended. (2) Changes in the Old Age Assistance Law, effective May 1, 1942, and changes in the regulations covering the administration of Old Age Assistance will result in permanently higher appropriations for this department. The Finance Committee has gone exhaustively into the matter of welfare expenditures and is reasonably satisfied that those persons being taken care of under the present appropriation of \$15,000 are almost all unemployable, and roughly fall into an age group of from fifty to seventy. This is a rather difficult prospect for the Town to face, but it brings out the necessity for keeping the administration of the Welfare Department in capable hands. Through proper case work, bookkeeping and billing, the Department collected from State and other towns \$18,500, exclusive of the large refunds obtained from the Federal Government, much of which could easily be lost through loose administration. (3) Under Clerk of Boards there has been recommended an expenditure of \$600. The Assessors are in particular need of getting their records onto a modern type-written basis, as required by the State. About half of the clerk's time would be spent with the Assessors and the remaining half can be effectively used by other boards, working through the Selectmen. (4) A complete survey covering the whole Town should be made of the use of our water system. It is particularly essential that our pumping equipment be enlarged if we

are to maintain efficient service for our growing population. It was expected that enlargement could be started this year, but owing to the war, it seems unlikely that any new equipment can be purchased at this time. With the assistance of the Water Commissioners, the Finance Committee will try to get such a survey under way. (5) In making this year's budget, the Finance Committee has been asked to consider adjusting salaries and wages of Town employees. The matter has been carefully studied and recommendations made covering the subject are included in the budget figures. It is the feeling of the Finance Committee that any rearrangements now made are but temporary until general conditions become more settled. (6) The increase in building in the Town will apparently be stopped as a result of the war and instead of an increased base for taxation, we may well face decreased valuations as a result of adjustments in assessments. (7) The members of the Fire Department at the Center are to be thanked and commended for the splendid job they have done in the building of the forest fire truck on their own time. The truck is one of the best of its kind in the State.

The Finance Committee budget for the year 1942 is as follows:

Finance Committee's Budget for 1942

	1941 <i>Appropriated</i>	1941 <i>Expended</i>	1941 <i>Balance</i>	1942 <i>Recommended</i>

The Finance Committee further recommends that, in line with previous comments, the Town direct:

That the Clerk of Boards be hired jointly by the Selectmen and the Board of Assessors, with one-half her time devoted to the Assessors and the other half to clerical assistance to the various Town Boards, the assignment of work to be cleared through the Selectmen, the Assessors to have priority on her time;

That the Highway Department be authorized to pay a minimum wage of \$4.50 a day to those employees engaged in the operation of mechanical equipment—trucks, tractors, graders, plows, etc.;

That the operation of dumps be under the supervision of the Highway Surveyor;

That a survey of water use be undertaken jointly by the Water Board and the Finance Committee;

That the money from the Dog Taxes be allocated in its entirety to the Library Expense Account;

That the \$200 provided in the Park Budget for the Life Guard at Baldwin's Pond be used to pay the salary of the Life Guard maintained at that Pond by the Wayland Chapter of the Red Cross;

That the unexpended balance in the following accounts be transferred to the Excess and Deficiency Account:

Assessors—valuation lists, etc.	\$42.70
Forest Fire Truck—purchase	.23
Cochituate Fire Station—repairs	13.31
Pine Ridge Road, etc.—construction	3.31
Junior High School System	
Committee—expense	40.42

The Finance Committee wishes to advise the Town that over a period of years it has enjoyed an unusually cooperative spirit on the part of the Town Officials and Department Heads, with the result that the work of keeping the Town finances on an even keel has been a pleasure, rather than a chore. The Finance Committee would, nevertheless, like to again express its appreciation to the various Town Officials for their constant

cooperation and their helpful assistance in preparing the Town's financial story for the Annual Town Meeting.

Respectfully submitted,

GERALD B. HENDERSON,
RONALD S. CAMPBELL,
THOMAS F. McMANUS,
ROBERT M. MORGAN,

Finance Committee, Town of Wayland.

February, 1942.

VOTES ENACTED AT THE ANNUAL TOWN MEETING, MARCH 5, 1941

Town Clerk's Office,
Wayland, Massachusetts,
March 5, 1941.

Howard S. Russell, Moderator :

Pursuant to the following warrant the inhabitants of the town of Wayland met this day and did the following business :

Article 1. To hear reports of the Town officers, agents and committees, and act thereon.

Mr. John W. Leavitt reported that the Hospital Committee could make no definite report at this time and asked that the Moderator reappoint the same committee and that said committee make a report at the next annual meeting.

Members of Committee—Dr. Ernest E. Sparks, John Connelly, J. Sidney Stone, Robert M. Morgan and John W. Leavitt.

Voted to accept the reports of the Town officers as they appear in the Town Report.

Article 2. To choose all necessary Town officers, agents and committees not elected by the official ballot.

Voted that John Connelly, Llewellyn Mills and Ernest E. Sparks, M.D., act as Trustees of the Allen Fund.

Voted that the Selectmen act as Fence Viewers.

Voted that the Constables act as Field Drivers.

Arthur W. Atwood, Melville Loker and Arthur F. Marston were elected as Surveyors of Lumber.

Arthur W. Atwood, Joseph Decatur and Arthur F. Marston were elected as Measurers of Wood and Bark.

The following were elected members of the Memorial Day Committee :

Spanish War Veterans
Frank C. Moore, William Hardy, Sr.

World War Veterans

Earl G. Barry, James J. Bennett, Gustave Blomgren,
Frank A. Burke, William G. Curley, August Dath,
John W. Leavitt, Parker H. Groton, Joe Perodeau,
Cornelius J. Maguire, Percy Steele.

Article 3. To grant money for necessary Town purposes.

Voted unanimously that the report, the recommendations and the budget, as prepared by the Finance Committee, be accepted, and that there be appropriated and assessed therefor the sum of \$183,094.33.

Recommendations as voted :

That in line with previous comments, the Town direct: the Assessors to prepare, print and distribute during 1941 a valuation list; the various departments to clear requests for legal advice through the Board of Selectmen; and the Fire Department, after exit repairs at the Cochituate Fire Station are complete, to make regulations for the use of the upper floor—to include, limitation on size of gatherings and setting of a rental fee;

That the money received from the Dog Taxes be divided; one-half to the Schools' Expense and one-half to the Library Expense Account;

That the \$200.00 provided in the Park Budget for the Life Guard at Baldwin's Pond be used to pay the salary of the Life Guard maintained at that Pond by the Wayland Chapter of the Red Cross;

That the unexpended balance in the following accounts be transferred to the Excess and Deficiency Account :

Construction—Lake Road	\$.51
Highway—New Truck	1.81
Curbing Installation—Main Street	2.27
Unpaid Bills: Voted 3/6/40	36.00

The following is the Finance Committee's Report as voted by the Town :

Article 4. To see if the Town will authorize the Treasurer, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1941 and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year in accordance with Section 17, Chapter 44, General Laws.

Voted unanimously that the Treasurer be authorized, with the approval of the Board of Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1941 and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than a year in accordance with Section 17, Chapter 44, General Laws.

Article 5. To see if the Town will appropriate \$220.00 for general improvement in any of the Cemeteries, same to be taken from money in the Town Treasury received from the sale of Burial Lots in 1940 in accordance with Chapter 114, Section 15, of the General Laws, or do or act.

Voted unanimously that the Town appropriate \$220 for general improvement in the cemeteries, same to be taken from money in the Town Treasury received from the sale of Burial Lots in 1940 in accordance with Chapter 114, Section 15, of the General Laws.

Article 6. To see if the Town will appropriate for payment of "Water Main Extension Notes Maturing in 1941" the sum of \$4,500.00, and appropriate for payment of "Water Department Equipment Notes Maturing in 1941" the sum of \$1,500.00, the entire \$6,000.00 to be taken from "Water Available Surplus," or do or act.

Voted unanimously that the Town appropriate for payment of "Water Main Extension Notes Maturing in 1941" the sum of \$4,500, and appropriate for payment of "Water Department Equipment Notes Maturing in 1941" the sum of \$1,500, the entire \$6,000 to be taken from "Water Available Surplus."

Article 7. To see if the Town will appropriate for payment of interest due in 1941 on "Water Extension Notes" the sum of \$585.00, and for interest due in 1941 on "Water Department Equipment Notes" the sum of \$7.50, the entire sum, \$592.50, to be taken from "Water Available Surplus," or do or act.

Voted unanimously that the Town appropriate for payment of interest due in 1941 on "Water Extension Notes" the sum of \$585, and for interest due in 1941 on "Water Department Equipment Notes" the sum of \$7.50, the entire sum \$592.50 to be taken from "Water Available Surplus."

Article 8. To see if the Town will appropriate for "Water Department Maintenance" the sum of \$6,969.86 to be taken from "Water Available Surplus," or do or act.

Voted unanimously that the Town appropriate for "Water Department Maintenance" the sum of \$6,969.86, and that this sum be taken from "Water Available Surplus."

Article 9. To see if the Town will vote to appropriate the sum of \$6,500.00 to be used toward the purchase of a grader for the Highway Department, and in connection with the purchase thereof, will authorize the Highway Surveyor, with the approval of the Board of Selectmen, to sell, trade or otherwise dispose of the present 1930 grader.

Voted unanimously that the Town will appropriate and assess the sum of \$6,500 for the purchase of a grader for the Highway Department, and in connection therewith, authorize the sale, trade or other disposition of the present equipment, the purchase to be made by the Highway Surveyor, with the approval of the Board of Selectmen.

Article 10. To see if the Town will vote to appropriate for "Road Machinery Account" the sum of \$606.50, the money to be taken from "Road Machinery Fund."

Voted unanimously that there be appropriated for "Road Machinery Account" the sum of \$606.50, and that this sum be taken from "Road Machinery Fund."

Article 11. To see if the Town will vote to raise and appropriate a sum of money for the improvement of Old Connecticut Path, said money to be used in conjunction with any money which may be allotted by the State or County, or both, for this purpose, or take any other action in relation thereto, the work to be done under the supervision of the Board of Selectmen by the Highway Surveyor.

Voted unanimously that there be appropriated and assessed the sum of \$6,000 for the improvement of Old Connecticut Path, said sum, or any portion thereof, to be used in conjunction with any money which may be allotted by the State or County, or

both, for this purpose, the work to be done under the direction of the Board of Selectmen by the Highway Surveyor.

Article 12. To see if the Town will appropriate and assess the sum of \$6,000.00 to be used under the direction of the Board of Selectmen in connection with W. P. A. or other similar Federal or State projects, or do or act.

Voted unanimously that there be appropriated and assessed the sum of \$8,000 to be used with the balance in the account of \$4,665.12, the entire sum \$12,665.12, to be used as the Town's share of W.P.A. expense, under the supervision of the Board of Selectmen.

Article 13. To see if the Town will appropriate and assess a sum of money to put in a water main from Old Connecticut Path along Stone Bridge Road and around Riverview Terrace, or do or act.

Voted to pass over the Article.

Article 14. To see if the Town will vote to appropriate and assess the sum of 1,200.00 for the purchase of a chassis and materials for the equipment of a forest fire fighting truck, and to authorize the trade-in, sale or other disposal of the two 1919 Reo trucks, or do or act.

Voted unanimously that there be appropriated and assessed the sum of \$1,200 for the purchase of a chassis and equipment for a forest fire fighting truck, the work of building the body to be done by the members of the Fire Department, the purchase of the chassis to be made by the engineers, with the approval of the Board of Selectmen, and further, that the engineers and Board of Selectmen be authorized to trade in, sell or otherwise dispose of such portions of the 1919 Reo trucks as is not required in the reconstruction of the new equipment.

Article 15. To see if the Town will vote to appropriate and assess a sum of money in the amount of \$500.00 to reimburse Frank A. Burke of Wayland for hospital and medical expenses incurred as a result of injuries sustained by him while in the performance of his duties as fireman for the Town of Wayland, or do or otherwise act thereon.

Voted that there be appropriated and assessed the sum of \$500 to be paid to Frank A. Burke to reimburse him for expenses incurred in connection with injuries sustained by him while in the performance of his duties as fireman for the Town of Wayland.

Article 16. To see if the Town will vote to change the term of office of the Selectmen, pursuant to Chapter 41 of the General Laws, from one year to three years, effective with the annual election in 1942, or do or act.

Voted that until further vote by the Town, the term of office of the Selectmen be changed from one year to three years, effective with the annual election in 1942, at which time one Selectman shall be elected for one year, one for two years and one for three years, and thereafter, one Selectman shall be elected each year to serve for a term of three years.

Article 17. To see if the Town will vote to appropriate and assess the sum of \$200.00 to purchase and erect a flag pole for the High School, or do or act.

Voted to pass over the Article.

Article 18. To see if the Town will vote to amend the existing by-laws of the Town by adopting a new article to be known as the Building Code and being regulations for the inspection of materials, construction, alteration, repair and use of buildings and other structures within the Town, and to provide penalties for violation, thereof, substantially as contained in the report of the committee appointed at the Special Town Meeting, December 14, 1938, as added to by vote of the Town at the Annual Town Meeting in March, 1939, a copy of which report is printed in the Town Report for the calendar year ending December 31, 1940, and a copy of which is on file in the Town Clerk's Office, or do or act.

The following motion was declared lost by the Moderator on the grounds that a two-thirds vote was necessary.

That the By-laws of the Town be and they hereby are amended by adding thereto certain provisions to be known as The Building Code, and being regulations for the inspection and construction of buildings within the Town as contained in the Report of the Committee appointed at the Special Town Meeting December 14, 1938, as amended by said Committee as added to in 1939 and continued at the Annual Town Meeting in March 1940, a copy of which Report was printed in a pamphlet entitled "The Building Code of the Town of Wayland, Mass." and delivered with the Town Report for the calendar year ended December 31, 1940, and presented to this meeting.

Vote: Yes 104 No 68

The following amendments to the Building Code were voted before the above motion was put to vote.

Voted that no change or alteration in the Building Code shall be made except by vote at an annual town meeting.

Voted that Sections 3.3.1 and 3.3.2 be amended by changing the references to Section 3.3.4 to Section 3.3.3 and that the second paragraph of Section 3.3.1 be amended by striking out everything following the word "loads" in the fourth line thereof, so that said paragraph shall read as follows:

"Footings of foundation walls, chimneys, piers, columns, etc. shall be wide and thick enough to safely resist the imposed dead, live and wind loads."

Approved by the Attorney General, April 16, 1941.

Article 19. To see if the Town will amend its by-laws by adding a new article, substantially as follows: "The Treasurer shall have authority as to any property now owned, or hereafter acquired through the foreclosure of tax titles held by the Town, subject to the approval of the Board of Selectmen, to sell such property, after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the Town, fourteen days at least before the time fixed for such sale, and shall be authorized, subject to the approval of the Board of Selectmen, to reject any bid which he may deem inadequate, and pending such sale, the Custodian of such property shall have authority, with the approval of the Board of Selectmen, to cause to be demolished any buildings or structures on such tax title land which he believes for the benefit of the Town are in need thereof." Or amend the by-laws by the addition of an article substantially like the foregoing article or any part thereof.

Voted unanimously that the Town amend its by-laws by the addition of the following article: "The Treasurer shall have the authority as to any property now owned, or hereafter acquired through the foreclosure of tax titles held by the Town, subject to the approval of the Board of Selectmen, to sell such property, after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the Town, fourteen days at least before the time fixed for such sale, and shall be authorized, subject to the approval of the Board of Selectmen, to reject any bid which he may deem inadequate, and pending such sale, the Custodian of such property shall have authority, with the approval of the Board of

Selectmen, to cause to be demolished any buildings or structures on such tax title land which he believes for the benefit of the Town are in need thereof."

Approved by the Attorney General April 15, 1941.

Article 20. To see if the Town will vote to accept Sections 81F to 81J inclusive of Chapter 41 of the General Laws of the Commonwealth as set forth in Chapter 211 of the Acts and Resolves of 1936, Section 4, under which the Board of Survey of the Town shall have enlarged powers in regard to subdivisions hereafter made in the Town, or take any other action in relation thereto.

Voted unanimously that the Town accept Sections 81F to 81J of Chapter 41 of the General Laws, as set forth in Chapter 211 of the Acts and Resolves of 1936, Section 4.

Article 21. To see what sum, if any, the Town will vote to transfer from available funds to meet any of the appropriations made under the foregoing articles.

Voted that the Article be passed over.

Voted to dissolve the meeting at 10:30 P. M.

A true copy: Attest:

M. ALICE NEALE,
Town Clerk of the Town of Wayland.

Warner, Richard, Chestnut Road, Cochituate.
Weeks, Charles A., Lake Road, Cochituate.
Wheeler, John G., River Road, Wayland.
Whittier, Charles F., Concord Road, Wayland.

REPORT OF THE BOARD OF SELECTMEN

All regular appointments have been made as required by law. They appear in the list of Town Officers and Committees.

Mr. John B. Wight, Jr., was appointed by our Board and the remaining members of the Board of Trustees of the Wayland Public Library, to fill the vacancy caused by the resignation of Dr. Amos I. Hadley. The appointment was made for the period up to the next Annual Town Meeting, in accordance with the General Laws.

In addition, vacancies have been filled on the following boards: William A. Loker, Mr. Gerald Henderson, Finance Committee, to fill the unexpired term of Mr. George W. Lewis; Mr. G. Seth Nichols, as Assistant Inspector under the Zoning Law; and Mr. Charles H. Smith, as Substitute Building Inspector.

Two New Boards have been set up and appointments made by us as follows:

Building Code—Chester H. Hobbs, Building Inspector.
Homer L. MacDonald, Inspector of Wiring.
J. C. Massie, Inspector of Plumbing.
Tire Rationing Board—George C. Lewis, *Chairman*.
Nelson D. Phelps.
Edward T. Damon.

HIGHWAY DEPARTMENT AND CHAPTER 90 CONSTRUCTION

The Committee, composed of our Board and Surveyor of Highways, after receiving numerous bids, purchased a heavy duty Power Grader for the sum of \$6,500.00, as voted in Article 9 of the Annual Town Warrant.

A section of Old Connecticut Path, commencing at the Framingham line, was constructed under Chapter 90, within the appropriation allotted and allowed. We believe that Chapter 90 construction work should be continued if and when funds are available from the State and County. We will continue to recommend the additional construction work on Old Connecticut

Path for the benefit of the Town and particularly for the benefit of those people living on the west side of Dudley Pond.

FIRE DEPARTMENT

In accordance with the vote of the Town, our Board together with the Board of Fire Engineers, purchased a new Ford chassis to be used for forest fire work. We wish to commend the Firemen and Engineers in Precinct One for their skill and perseverance in constructing a suitable body for this truck. They gave unstintingly of their time and this splendid piece of apparatus is a great credit to the Department.

WORKS PROGRESS ADMINISTRATION

Until the discontinuance of the W. P. A. last July, we had carried through with the regular projects set up, consisting of: Street drainage of West Plain Street at Castle Gate South intersection—also West Plain Street, and Damon Street, also the sewing project. The total cost to the Town was \$9,429.63. Upon the termination of the projects by the Federal Government, we immediately closed the office of the administration. These drainage projects will be of lasting benefit to the Town in the preservation of the roads where installed. We recommend that the balance of \$2,4854.9 in this account be kept intact as an emergency fund in the event work projects should commence in the post war period.

DUDLEY POND

We have had the storm drain at the beach extended 100 feet, which we believe will correct the hazardous condition previously existing.

We feel that the Town should appoint a Committee to study the serious condition which now exists, due to the increasing growth of weeds around the pond, especially in the vicinity of the beach. We appointed a temporary Committee to start this investigation and feel certain that they will be of value in aiding those selected by the Town under the Article in the Warrant. In our opinion, this is a very serious matter and one that should receive prompt and careful consideration.

TOWN INSURANCE

The insurance coverage of all Town properties was carefully studied by us and the conclusion reached that the Town could obtain more satisfactory service, cheaper insurance, and at the same time, keep the commissions for brokerage locally, by

the use of a General Agency. This has resulted in the consolidation of all insurance, elimination of all overlapping and duplication, reduction in the number of policies, complete appraisal service in all departments and a permanent savings to the Town of approximately \$1,500.00 for a three year period.

As a result of a fire loss at the Cochituate School, following shortly the adoption of the General Agency arrangement, the Town recovered \$3,420.00 in a prompt settlement, without dispute.

BUILDING CODE

The Building Code was adopted at the last Town Meeting and we appointed Mr. Chester H. Hobbs as Building Inspector, Mr. Homer L. MacDonald, Inspector of Wiring and Mr. J. C. Massie, Inspector of Plumbing. In the absence of Mr. Hobbs, we appointed Mr. Charles H. Smith to serve as Substitute Building Inspector. We commend these men for their untiring efforts in carrying out the provisions of this law. These services were performed without remuneration. No complaints were brought to the Board of Appeal, conclusively proving a fine spirit of co-operation.

The number of permits issued during 1941 is as follows :

Building Inspector:	18—New Homes
	9—Alterations and Additions
	10—Garages
Electrical Permits:	26—New Buildings
	23—Alterations
	6—Oil Burners
	14—Ranges
	1—Hot Water Heater
	1—Electric Sign
Plumbing Permits:	16—New Buildings
	6—Alterations

Total	130
-------	-----

Total of estimated cost of buildings \$98,600.00.

CIVILIAN DEFENSE

At the request of the State Committee on Public Safety that we organize a program of Civilian Defense, we appointed Mr. Hugh F. Colliton, Jr., as Chairman. Under his capable direction, a splendid organization was developed; upon his resignation, it has continued to effectively operate under Mr.

Louis Van Phelan, our present Chairman. Additional appointments have been: Mr. John W. Leavitt, Recruiting Officer for State Guard Reserve Unit, Mr. Edmund H. Sears, Chairman of Local Defense Savings Committee.

The Selectmen feel that the Town is to be congratulated on the genuine interest shown by the very many individuals, who have given unselfishly of their time to put the program into effect and are proud that our Town has been one of the leaders in this work. We cannot urge too strongly that this co-operative spirit continue, so that we may be fully prepared for any and all emergencies in the future.

GENERAL

After conducting several liquor license hearings, it was clearly indicated to us that the majority of the townspeople were in favor of the continuation of the existing licenses only; therefore, we, as licensing authorities, opposed the issuance of all additional Club Liquor Licenses.

The bounds between the Town of Lincoln and Wayland were perambulated and the boundary stones marked, in accordance with the General Laws.

The residents of Lake View Road have petitioned the Selectmen for the acceptance of this road under the Betterment Act. The project has been properly presented and as set up, carries the recommendation of our Board, acting as Board of Survey. An article in this year's Warrant will bring the matter before the Town for action.

We feel that our report would not be complete without noting the passing on of Margaret Wheeler, who served the Town faithfully and well over a period of thirty-eight years in the capacity of Librarian.

We are glad to be able to inform the Town that the operation of its business has been conducted without friction and in a spirit of real harmony. We are particularly grateful for the assistance which has been gladly furnished us by all the Town Officials and employees, with the result that the Town, for the first time in a number of years, has been able to live within its budget, without the necessity of extra town meetings.

WILLIAM A. LOKER, *Chairman*,
JOHN W. LEAVITT,
WILLIAM F. HYNES, *Clerk*,
Board of Selectmen.

REPORT OF THE TOWN ACCOUNTANT

For the Year 1941

To the Honorable Board of Selectmen :

In compliance with the provisions of Chapter 41 of the General Laws and Amendments, I hereby submit the following report of the Accountant's Department.

Town Treasurer.

REPORT OF COMMISSIONERS OF TRUST FUNDS

During the calendar year 1941 we have made a few changes of investments, as will appear from the Treasurer's Report. The policy of setting up a reserve fund from income and of depositing all new funds of less than one thousand dollars in approved savings banks has been continued.

JOHN W. LEAVITT, *Chairman,*
J. REED MORSE,
J. SIDNEY STONE, *Clerk.*

Assessors of Wayland.

REPORT OF THE WAYLAND PLANNING BOARD

For the Year 1941

During the year 1941, there was a considerable amount of new building in Wayland. A number of the large old estates, such as the Shaw property, were in the process of being broken up into smaller house lots, new streets were being laid out, and plans were being made for widespread extensions of the various utility services, such as water, electricity and telephone.

Under the present law, the power of supervising new developments of this kind rests with the Board of Selectmen, acting as a Board of Survey. The Selectmen, however, in accordance with their established practice, have referred to the Planning Board for study and recommendation many of the proposed projects, and the Planning Board has been glad to cooperate in this important work of harmonizing the immediate interests of the builders with the long-range interests of the town as a whole.

In addition to this work of supervising new building layouts, the Planning Board is continuing its work of seeking to improve conditions at certain dangerous street intersections, including the corner of Bow Road and Concord Road, and the corner of Millbrook Road and Plain Road. We have been somewhat hampered in this work owing to the difficulty, in time of war, of securing the services of a competent moderate-priced surveyor.

We have had under consideration on several occasions during the year the matter of the possible widening or relocation of the State Road between Weston and Sudbury, and representatives of the Board attended a hearing at the State House last March on a proposed bill to widen the State Road in its present location. We understand from discussion with members of the State Highway Department that there is no immediate prospect of any action being taken in this connection, since this is not considered a highway of substantial military importance.

We have also had under consideration various ways and

means of preparing an accurate, up-to-date master plan of the Town. There are large sections of the Town that have never been surveyed, with the result that even the Assessors have no accurate information available upon which to base the assessments in these areas. While the original expense of such a master plan would undoubtedly be rather large, we believe the Town would ultimately be well repaid for the initial outlay.

A very interesting joint meeting of the Selectmen, Finance Committee and Planning Board was held in December to discuss the advantages and operations of long-range programming of municipal public works. Mr. Paul V. T. Hedden, Assistant Consultant of the National Resources Planning Board, spoke at this meeting and explained what is being done along this line by other Massachusetts towns with the object of equalizing capital expenditures over a period of years. A committee of Wayland citizens is to be appointed to consider this important matter further.

Respectfully submitted,

GILBERT SMALL, *Chairman*,
JAMES B. AMES, *Clerk*.

REPORT OF THE WAYLAND COMMITTEE OF PUBLIC SAFETY

The Wayland Committee on Public Safety was formed in April, 1941, following the Governor's request that all Massachusetts cities and towns make immediate preparations for Civilian Defense in case of emergency. Hugh F. Colliton, Jr., was nominated by the Selectmen, and appointed by J. W. Farley, Executive Director of the Massachusetts Committee on Public Safety. An Executive Committee was formed, consisting of :

William Loker, Representing Selectmen; Theodore H. Harrington, Representing Fire Department; L. Van Phelan, Chairman Services and Supplies Division; Dr. William J. Dahill, Chairman Health and Social Services Division; John Seavey, Chairman Protection Division; Mrs. J. Sidney Stone, Chairman Women's Division, assisted by Edith Thayer; Willard B. Dik, Representing American Red Cross; Gustave Blomgren, Representing American Legion; Ruth E. Cooper, Secretary; L. Van Phelan, Publicity.

Registration of all those willing to contribute time for Civilian Defense work proceeded immediately, with 552 signing up. Calls are still being made against this list as need for new workers has arisen.

First call for work was the Aluminum drive, when over 1,500 pounds of this metal was gathered in a week, doubling our quota, with particular cooperation from the Women's Division, the Boy Scouts, the Fire Department, and the Highway Department.

Eight men attended the summer session of the Boston Air Raid Precaution School, and five women the Women's Civilian Defense School, all graduating with the qualification to conduct local A. R. P. Schools.

Two fire auxiliaries were formed, one in each precinct, under the instructorship of these instructors, and with the cooperation of the Fire Department. Twenty-nine were gradu-

ated in Cochituate, and twenty-one in Wayland Center. These men will assist the regular Fire Departments not only during fires caused by raids, but also during peacetime emergencies. In addition to use of the regular fire equipment a reasonable amount of extra material will be available for auxiliary use, which can later be converted to regular use.

Rescue squads were also formed in each precinct, and thoroughly trained, not only in First Aid, but with the various situations which might arise from war conditions, such as incendiary bomb control, demolished buildings, gas protection, et cetera. These forces will be supplemented by the Red Cross First Aiders.

A vaudeville show was presented in the Town Hall, October 2, to raise money which might be used for Civilian Defense purposes, exclusive of Town appropriations. This fund will be used until the Town warrant in March, at which time it will be replaced. Approximately \$500.00 net profit was received.

A small class of wardens took training during the Fall, and have been helpful in further organization.

Hugh F. Colliton, Jr., resigned December 1, because of pressure of business and Louis Van Phelan was appointed Chairman.

Upon Declaration of War December 8, organization and training was put on a War Time basis. A large number of trained workers was necessary in many jobs and schools were organized to give them the necessary training, in both Cochituate and Wayland, in organization, incendiary bombs, high explosives, and gasses. Assignments were made as rapidly as workers were trained, but a large number of additional volunteers is still needed.

Wardens supervise preparations, and take charge of their own neighborhoods, called sectors. Wardens are assisted by fire watchers, drivers, messengers, and first aiders. Over one hundred wardens have been thoroughly accredited and assigned, and have undertaken training in their local neighborhoods.

The Auxiliary Fire Department is under the supervision of the Fire Department, cooperating with the Defense Committee, and are called on for smaller fires, or when there are more fires than the regular department can handle, in case of a raid or other emergency.

The Rescue Squad is for heavy duty first aid, regular first

aiders being for light duty first aid. Ambulances are being prepared, complete with stretchers and other equipment.

Courses are being given in Motor Transport and Mobile Canteen, to aid in transportation and feeding in case of emergency. Defense policing is being studied in respect to the needs of the Town. Test raids were held early in January, to determine where additional training and personnel were necessary, and further training has been based on the results of these raids. Additional schools and training are to be held in the early spring.

Two precinct committees have been formed to expedite training and organization through closer familiarity with local problems, to work under a central Executive Committee. The organization of the Committee on Public Safety is as follows:

Chairman, Louis Van. Phelan; Selectmen's Representative, William Loker; American Legion Representative, Gustave Blomgren; Fire Department Representative, Theodore H. Harrington; Police Department Representative, Harry Craig; Secretary, Ruth E. Cooper.

We are indebted to the Library Board for use of the basement for Precinct I report center, and the Fire Department for Precinct II report center.

The signals used are as follows:

1. Preliminary call for all auxiliaries—2-2 repeated once. This was used on tests.
2. Raid announcement—short blasts for 2 minutes on siren, also short blasts on patrol wardens' automobile horns. This is used only when an actual raid is expected.
3. All clear signal—solid siren blast for 2 minutes and long automobile horn blasts by patrol wardens. This may be used on tests.

Appreciation is expressed to Seiler's Ten Acres and Sandy Burr for permission to use the premises for evacuation purposes and Medical First Aid Stations, and to B. W. Johnson, Jr., for supplying Medical Center for Cochituate, to the Legion in offering the Hall for classes in Cochituate, the School Committee for the school for various purposes and to the Red Cross for the splendid work and cooperation they have given.

LOUIS VAN. PHELAN, *Chairman.*

This list includes arrests made by the State Police.

The Wayland Police served during 1941, one hundred and two summonses.

HARRY W. CRAIG,
Chief of Police.

REPORT OF THE BOARD OF FIRE ENGINEERS

For the Year Ending December 31, 1941

During the year 1941 the combined Wayland and Cochituate Companies answered 152 calls, an increase of 27 calls over the preceding year. Thirty six were for grass fires, 33 for fires in buildings, including chimney and oil burners, 41 for fires in woodland and 7 for brush. The remainder for causes of a minor nature.

Due to the extreme dry condition of the woodlands from early Spring to late Fall, there were more fires in grass, brush and wooded areas.

The fire on Rice Road burned an area of nearly twenty acres due to the fact that water had to be pumped nearly a mile. The State truck responded to a call for more hose and assisted in placing the fire under control.

Immediately after the March Meeting, the men of the Wayland company under the direction of District Chief Albert Keach started work on the new forest fire truck. Giving all their spare time they completed the job in July, saving the Town about \$1,500.00. This truck is modern in design and fully equipped, the equal of any in the State for forest fire service. The time and labor these men gave is an example of the keen interest they have in the Department.

The men of both companies hold weekly drills when the weather is favorable. They have trained forty auxiliary firemen for defense and are starting another group in February.

All apparatus is in good condition with the exception of tires, some of which are seven and eight years old, but these are being replaced as rapidly as possible.

Respectfully submitted,

THEODORE H. HARRINGTON,
ERNEST H. DAMON,
ALBERT J. KEACH,
THOMAS E. HYNES,
HOMER L. MacDONALD,

Board of Engineers.

REPORT OF THE TREE WARDEN

Numerous trees that had succumbed to hurricane damage or to disease have been taken down and many hanging limbs removed.

We are losing roadside trees each year from damage, disease, or changes in streets, and a long range program of replacement should be undertaken, with the setting out of a few trees each year, to preserve the beauty of our roads.

The trees on West Commonwealth Road, and East and West Plain Streets have been trimmed.

The financial report follows:

Appropriation	\$700.00	
From Reserve	50.00	
	<hr/>	\$750.00
Tree Warden	\$335.00	
Labor	338.25	
Tools, supplies, telephone	18.32	
Trucking	58.00	
	<hr/>	749.57
		<hr/>
Balance		\$.43

REPORT OF THE MOTH DEPARTMENT

The past year brought us a particularly bad infestation with elm leaf beetles and brown tail moths. Two sprayings were made with an interval between which worked out quite satisfactorily in the control of these pests.

Many real-estate owners cooperated in the control by having their trees sprayed either by this department or by private contractors, thus helping materially to combat these destructive pests.

The adult elm leaf beetles quite commonly penetrate into attics to pass the winter, and householders could render valuable aid in reducing next summers crop of beetles by spraying their attics in mid April with insectide, thus killing the adult beetles before they emerge to lay eggs for another generation.

The financial report follows :

Appropriation	\$1,000.00	
From Reserve	500.00	
	<hr/>	\$1,500.00
<i>Expenditures</i>		
Town Work—Labor	\$346.75

ALBERT B. MARCHAND,
Sealer of Weights and Measures.

REPORT OF BOARD OF HEALTH AGENT

Cochituate, Mass., December 31, 1941.

The Board of Health submits the following report for the year ending December 31, 1941.

Licenses Granted

Alcohol	9
---------	---

Permits Issued

Conducting undertaking establishment	1
Building cesspools	11
Keeping swine	2
Keeping goats	1

Record of Diseases Dangerous to the Public Health

Chicken Pox	6
Dog Bites	14
German Measles	2
Measles	16
Mumps	57
Scarlet Fever	36

The Board has investigated many complaints during the year, and all were taken care of.

The children entering school received the Anti-Toxin test for the prevention of diphtheria recommended by the State Board of Health.

The Board feels that the different clinics held in the schools this year were a great help to the school children, and hope they will continue with them.

There were a large number of Scarlet Fever cases. As a result the board was obliged to prohibit the issuing of Library books. This action was taken to prevent the dangerous disease from spreading. A number of these patients were sent to the contagious hospital in Brighton. The expense of caring for these cases is the reason that we had to ask for more than the amount voted us at Town Meeting. The Board wishes to make

this fact known; that the State does not pay for this hospital care and the town is obliged to. The board hopes that the people will reimburse the Town for the expense of these cases.

WALDO L. LAWRENCE, *Chairman,*
ERNEST H. DAMON, *Clerk,*
JOHN J. LINNEHAN,
Board of Health.

REPORT OF THE MILK INSPECTOR

December 31, 1941.

I herewith submit my report for 1941.

There have been twenty-two licenses issued to dealers to sell milk in the Town of Wayland.

Respectfully submitted,
JOHN J. LINNEHAN,
Milk Inspector.

REPORT OF THE INSPECTOR OF ANIMALS

January 1, 1941.

I wish to submit my report as Animal Inspector for the year 1941.

Number of Oxen Inspected	2
Number of Bulls Inspected	19
Number of Native Cows Inspected	413
Number of Interstate Cows	41
Number of Young Stock Inspected	109
Number of Swine Inspected	574
Number of Goats Inspected	55
Number of Dogs Quarantined	14

Respectfully submitted,
WARREN F. LAWRENCE,
Inspector of Animals.

REPORT OF WAYLAND DISTRICT NURSE

For the Year Ending December 31, 1941

Prenatal calls	16
Deliveries attended	2
Nursing visits	
Bedside care, dressings, and other treatments	1,109
Pre-school	109
Advisory	137
Miscellaneous	64

The Motor Corps of the local Red Cross was most co-operative when transportation was necessary.

A Tonsil and Adenoid Clinic was financed last spring by the Red Cross. The Nursing Association sponsored other local charities.

Respectfully submitted,

MARY E. McNEIL,
Wayland District Nurse.

REPORT OF THE HIGHWAY DEPARTMENT

To the Citizens of the Town of Wayland:

The following is an outline of the work which has been done by the Highway Department in the past year.

HIGHWAYS AND BRIDGES

General Maintenance of Town Roads and Brush Cutting was done under this appropriation.

OILING

Bow Road, Castle Gate South, Damon Street, French Avenue and Nob Hill were scarified, gravelled and surfaced. Other roads in need of it were surface treated as far as the appropriation would allow.

PINE RIDGE ROAD AND LAKE PATH

Surface treatment was completed, this work having been carried over from 1940.

SIDEWALK CONSTRUCTION

950 feet of Black Top Sidewalk was constructed on East Commonwealth Road.

SIDEWALK MAINTENANCE

800 feet of sidewalk on East Commonwealth Road and 250 feet on Main Street, between Legion Square and King Street, was resurfaced.

RAILINGS

200 feet erected on Pemberton Road, (cement posts and cable guard rail.)

200 feet erected on Harrison Street, (cement posts and 2x6 railings.)

CHAPTER 90 CONSTRUCTION

2,950 feet of finished surface with necessary drainage was completed on Old Connecticut Path, this being the work required

to fulfill the contract. In order to obtain an outlet, it was necessary to extend the drainage system approximately 600 feet beyond the finished surface.

CHAPTER 90 MAINTENANCE

A surface treatment of asphalt and pea stone was applied to a section of Main Street and East Commonwealth Road. Shoulders were treated, brush cut and railings painted on Chapter 90 Roads.

ALBERT E. POTVIN,
Highway Surveyor.

REPORT OF THE BOARD OF PUBLIC WELFARE

For the Year 1941

There are now three principal categories of relief expenditures administered on behalf of the Town by the Board of Public Welfare. These are (1) Old Age Assistance, (2) Direct Welfare or Temporary Aid, and (3) Aid to Dependent Children.

During the year 1941, the total expenditures made through this Board for Old Age Assistance amounted to \$27,416.81; the total expenditures for Direct Welfare were \$14,261.84, and the total expenditures for Aid to Dependent Children were \$2,175.00 making an aggregate of \$43,853.65 for all relief expenditures by the Town.

Since the Federal and State governments between them are required to reimburse the Town for approximately one half of the cost of Old Age Assistance and for a portion of the cost of Aid to Dependent Children, and since several of the recipients of Direct Welfare were not permanently settled in Wayland but were chargeable for their support either to some other town or city or to the State, the net cost to the Town for 1941 relief comes to substantially less than the gross expenditure figures given above. Thus the Town received reimbursement from the State and Federal Governments for Old Age Assistance during this year amounting to \$22,675.63, and reimbursement from other towns and cities and from the State for Direct Welfare amounting to \$6,707.70. Consequently, the net cost to the Town for Old Age Assistance in 1941 was \$27,416.81 less \$22,675.63, or \$4,741.18; and the net cost for Direct Welfare was \$14,261.84 less \$6,707.70 or \$7,554.14, making a total net cost for relief (including \$745.36 for Aid to Dependent Children) equal to \$13,040.68.

The following tables indicate, for each of the three classifications in the year 1941, the number of cases aided, the average monthly case load, the average gross expenditures per month per case, the total gross expenditures and the total net expen-

ditures after reimbursements, with comparative figures for the year 1940:

OLD AGE ASSISTANCE

	1940	1941
Cases January 1	69	79
Cases December 31	79	88
Average monthly case load	70.6	83.8
Average gross expenditure per month per case	\$26.32	\$32.72
Total expenditures—gross	\$22,294.62	\$27,416.81
(1941 includes \$2,423.90 for medical, hospital, funeral and similar expenses.)		
Total Expenditures— net after reimbursements	\$4,582.73	\$5,138.61

AID TO DEPENDENT CHILDREN

	1940	1941
Cases January 1	3	3
Cases December 31	3	3
Average monthly case load	2.67	3.75
Average gross expenditure per month per case	\$52.30	\$48.33
Total expenditures—gross	\$1,674.00	\$2,175.00
Total expenditures— net after reimbursements	\$904.81	\$745.36

DIRECT WELFARE

	1940	1941
Cases January 1	45	46
Cases December 31	46	30
Average monthly unemployable case load	25.2	26.5
Average gross expenditure per month per unemployable case	\$29.45	\$31.03
Average monthly employable case load	18.5	5.5
Average gross expenditure per month per employable case	\$23.92	\$20.45
Total expenditures-gross	\$15,233.60	\$14,261.84
(1941 includes \$3,483.25 for medical, hospital, funeral and similar expenses not reflected in above averages.)		
Total expenditures— net after reimbursements	\$9,639.32	\$6,631.61

As will be seen from the above figures,, the number of recipients of Old Age Assistance has increased during the past year from 79 on January 1 to 88 on December 31. The average expenditure per recipient has likewise increased substantially, reflecting the general rise in the cost of living. We expect that this trend will have to continue during the year 1942, particularly in view of the provisions of the new State Old Age Assistance Law which becomes effective May 1, 1942. Under the present law, recipients of Old Age Assistance who live alone are generally entitled to a minimum allotment of \$30.00 per month, less the amount of such other income or means of support as they may have. Under the new law, such persons will generally be entitled to a minimum allotment of \$40.00, less their other income or means of support.

While there has been less general unemployment during the year and the case load in the Direct Welfare classification has consequently dropped somewhat, the decline has not been as great as might have been expected, for the reason that the great majority of the persons aided in this category are physically disabled or otherwise incapable of getting a steady job, and so are classed as chronic "unemployables." For this reason also, we cannot look forward to any substantial decline in the case load in 1942, and there may even be some increase as civilian industries are converted to war purposes and men are temporarily thrown out of work.

We have made use of ten hospitals during the year for Old Age Assistance and Direct Welfare cases, when we were advised by the attending physician that hospital care was necessary, as follows:

<i>Name of Hospital</i>	<i>Welfare Cases</i>	<i>O. A. A. Cases</i>
Framingham Union Hospital	13	5
Massachusetts General Hospital, Boston	5	1
State Infirmary, Tewksbury	6	
Waltham Hospital, Waltham	1	
Huntington Memorial Hospital, Boston	1	
Peter Bent Brigham Hospital, Boston	1	
Emerson Research Laboratory, Boston	1	
Mass. Eye and Ear Infirmary, Boston	1	
Newton Hospital, Newton		1
Leonard Morse Hospital, Natick		2
Total hospitalizations	29	9

Through the Red Cross Motor Corps, transportation to and from the hospitals has been provided for many of these cases, including follow-up visits to clinics and out-patient departments, and we are grateful to the public-spirited women who have undertaken the job of doing this driving for the town. Hereafter, because of the tire shortage, we must expect less assistance from this source, and the burden of providing such transportation will probably have to fall largely on the District Nurse for the duration of the war.

We have also arranged for boarding several cases in Rest Homes and in private homes. These were convalescents or semi-invalids who had no one else to care for them.

During the year, the Commissary, previously operated under our supervision for the distribution of clothing and surplus foodstuffs donated by the Government, was closed down. This step was taken when several other towns that had been sharing with us the expense of warehousing the goods, decided to change over to the so-called "stamp plan" method of distributing surplus foodstuffs under the jurisdiction of the Federal Surplus Commodities Corporation. The Commissary method of distribution was in many ways a wasteful one, since quantities of perishable foodstuffs were received for which there was no immediate use, and much of the clothing had but little practical value. Moreover, the expense to the Town of maintenance and administration was considerable, in spite of the fact that the goods themselves were free. We have spent a good deal of time investigating the "stamp plan" and conferring with various government officials about it, but we do not feel that the time has yet come for its adoption in this Town. The scheme is still in the process of development, and at present it seems to us to be too much tied up with red tape to be very practical for a town of the size of Wayland.

The many details in connection with the administration of the work of the Board are still being handled most capably by Mrs. Waldo Tufts, as Agent for the Board. During the past year she became fully qualified under the new Civil Service requirements. We have also been fortunate in securing the services of Miss Edith Thayer to work under Mrs. Tufts and to relieve her of much of the work in connection with visiting our cases and preparing the numerous reports required as a condition of State and Federal reimbursement to the Town.

We want to express our gratitude to Mr. J. Sidney Stone

for donating an automobile for our use in the frequent trips that have to be made to visit relief recipients in various sections of the Town, and we want to record again our appreciation to Dr. Ernest E. Sparks for services far beyond what he is paid for.

Respectfully submitted,

JAMES B. AMES
CARLISLE D. SCOTLAND,
JOHN W. SEAVEY.

REPORT OF THE SOLDIER'S RELIEF AGENT

To the Board of Selectmen :

Herewith is my annual report of the Soldier's Relief department and the disbursement of Soldier's Benefits.

Twenty family cases representing ninety-four persons were granted relief from time to time during the year.

A great many veterans were able to find private employment throughout the State owing to the increase in National Defense work which made it unnecessary for them to seek additional aid.

During the year I found it necessary to confine seven Veterans to the Veterans Hospital in this State.

The disbursements of this fund will be found in the Town Accountant's detailed report.

Respectfully submitted,

FRANK A. BURKE,
Soldier's Relief Agent.

MIDDLESEX EXTENSION SERVICE WORK IN WAYLAND

The following is a report of some of the activities of the Middlesex County Extension Service in the town of Wayland during the year 1941.

Dairy farmers within the town have been assisted with their problems on pasture improvement, building plans and in general farm management. Much time was also spent on milk marketing problems. Mainstone Farm is a member of the Dairy Herd Improvement Association. Mr. C. B. Tillson has been very active in the Middlesex County Milk Goat Breeders' Association. A large number of visits were made to vegetable growers to assist in their production problems. Many colored pictures were taken of operations in the production of market garden crops, in order that the information could be passed on to other growers in the county.

Mrs. Leslie B. Reid has acted as Town Chairman for the homemakers' group. A series of meetings were conducted on clothing construction, food preservation, child development and reseating chairs. In Cochrane, Mrs. Fred Gelinis served as Homemaking Chairman and similar series of meetings were conducted.

In Boys' and Girls 4-H Club Work, twelve clubs were organized, with a total enrollment of 106. Mrs. Leslie B. Reid served also as 4-H Club Chairman, with the following members on her town committee: Mrs. Mabel Draper, Mrs. Joseph H. Decatur, Doctor David Angell, Mr. George Snow, Mr. Elmer Bigwood. Mr. Fern Taylor served as Town 4-H Camp Chairman. Local leaders were: Mrs. John Beatson, Mrs. Charles Cole, Miss Helen Pearson, Mrs. Fred Gelinis, Mrs. Charles Buswell, Miss Barbara Reid, Mrs. Lawrence Ward, Miss Katherine Reid, Mrs. Thomas Costelloe, Miss Eleanor Curley, Mrs. Albert Sanderson and Mr. W. A. Loker.

All 4-H clubs participated in the large supper and final

exhibit, with State Leader George L. Farley and Assistant State Leader Tena Bishop being present. The profits of this program, along with money raised during a Tag Day, were contributed to the development of Camp Middlesex in Ashby. Ten local boys and girls attended this camp during the summer. Barbara Reid was elected delegate to Junior Leaders' Camp at the Massachusetts State College.

REPORT OF SCHOOL COMMITTEE

To the Citizens of Wayland :

The School Committee organized March 12, 1941, with Cornelius J. Maguire, Chairman and Dorothy C. Stone, Secretary. The Committee has held bi-monthly regular meetings and several special meetings. Regular meetings were held the Wednesday evening preceding the first and third Monday of each month.

Superintendent of Schools, Frank H. Benedict, retired from his duties at the close of school last year. We regret that he has reached the age limit, provided by law, beyond which Superintendents who are members of the retirement system, must retire from office. Mr. Benedict has given valuable service, as Superintendent of Schools, for many years. He has the thanks and sincere best wishes of the School Committee.

Co-operating with the School Committee of Sudbury and Sherborn, a new School District Union was formed. This Union being at the suggestion of, and according to the rules of the Commonwealth of Massachusetts Department of Education. Many meetings and conferences were held, a large number of Superintendents were interviewed and after a thorough study of the qualifications of the numerous candidates, Mr. Alfred R. Kenyon was unanimously elected Superintendent of Schools of Sudbury, Sherborn and Wayland. Mr. Kenyon has been with us since last fall. He has maintained the high standard of the references, as to his ability, received by us prior to his election. The School Committee is grateful to the people who recommended Mr. Kenyon. It is an exceptional pleasure to welcome Mr. Alfred R. Kenyon and his family to Wayland.

We wish to commend our school employees for a fine year's work. We wish to make our Wayland schools the best possible in every way and to that end we welcome constructive suggestions from townspeople.

We thank other Town Boards and Departments for their co-operation and assistance.

The excellent reports of the Superintendent of Schools, the Principals, School Physician, School Nurse and excerpts from other reports are printed with this report and deserve your careful reading

Respectfully submitted,
 CORNELIUS J. MAGUIRE,
 ELLEN B. FERGUSON.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Wayland School Committee :

I present herewith my first annual report as Superintendent of Schools. In these first few months I have found much of interest in making my acquaintance with your school system, its personnel, organization, textbooks, equipment, and pupil activities.

AMERICAN EDUCATION WEEK

American Education Week was observed throughout the country during the week beginning November 9. Parents and townspeople were invited to visit our schools in regular session, but a rather small number attended. An open night was held in each school from 8 to 9 P. M. when parents and others were invited to meet teachers in their classroom and see some of the class work. This part of the observance was particularly successful. Many fathers and mothers visited the schools and went away with a better understanding of the teachers and the work that is being done.

PROGRAM OF STUDIES

The elementary program of studies has been strengthened by the introduction of textbooks offering a more suitable sequence of material.

BUILDING

I recommend that the following maintenance work be done at the Cochituate School: the stair treads and portions of the hall flooring should be replaced, the trim and sash should be painted, and a start should be made towards redecorating the inside of the building.

I recommend that the following maintenance work be done at the Wayland elementary school: the trim and sash should be painted and the shingles stained and a start should be made toward redecorating the inside of the building.

I recommend that additional heating units be installed in the study hall at the high school due to the fact that this room cannot be adequately heated in cold weather.

TRANSPORTATION

I recommend that when ever possible in the future that the bus routes be so organized that at any one time the pupil load on a bus will not be excessive.

CLOSING

I appreciate the opportunity of serving as your Superintendent of Schools. My coming here has been made pleasant by many acts of consideration both official and unofficial.

Respectfully submitted,

ALFRED R. KENYON.

REPORT OF THE HIGH SCHOOL PRINCIPAL

Superintendent Alfred R. Kenyon,
Wayland, Massachusetts.

Dear Mr. Kenyon :

I herewith submit to you my twenty-fourth annual report as Principal of the Wayland High School.

The Maximum enrollment is 174 students—78 boys and 96 girls.

The present enrollment is 163 students—73 boys and 90 girls.

The present enrollment is distributed to courses as shown in the following tabulation :

Course	Freshman Class		Sophomore Class		Junior Class		Senior Class		Post Graduates		Totals	
	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls
College	5	9	5	7	2	2	4	2	1	0	17	20
Commercial	10	9	2	5	3	5	3	3	0	0	18	22
General	11	0	12	9	8	3	7	5	0	0	38	17
Home Economics	0	6	0	13	0	6	0	6	0	0	0	31
Totals	26	24	19	34	13	16	14	16	1	0	73	90

The present enrollment of students is attending classes as follows :

English 1	53
English 2	53
English 3	28

English 4	27
French 2	50
French 3	17
French 4	3
Latin 1	26

Home Management 4	6
Drawing	16
Physical Education, Boys	39
Physical Education, Girls	45

Sincerely yours,

DAVID J. ALLEN.

REPORT OF THE DIRECTOR OF PHYSICAL EDUCATION

Mr. Alfred R. Kenyon,
Superintendent of Schools,
Wayland, Massachusetts.

Dear Mr. Kenyon:

In my first report I will endeavor to give a brief outline of a year's work and bring out some of the major objectives.

The Physical Education Program of the Wayland and Cohituate Grammar Schools is identical. The program is made up of marching, calisthenics, games and corrective work. Posture is an important part of the program. A posture contest is held once a month in all the grades to promote a "posture consciousness."

In the spring and fall, weather permitting, the program is conducted on the spacious playgrounds of both schools. The lower grades have singing games, simple ball games and tag games. The upper grades play team games of higher organization. It is anticipated that the two grade schools will compete in soft ball and kick ball—thus creating an added interest in the field of Physical Education.

The High School Physical Education Program is compulsory for freshmen and sophomores only, however, some upper classmen include Physical Education in their programs. All others are at liberty to participate in basketball.

The High School Program includes archery, badminton, tennis, softball, marching, calisthenics with a corrective background, folk dancing, volley ball and basketball ball. The High School basket ball team is made up of students in all four years of High School. The teams play neighboring High School teams. These games provide a healthy outlet and promote a fine spirit of sportsmanship among the girls.

Respectfully submitted,

GRACE CONLEY.

REPORT OF THE ART SUPERVISOR

Mr. Alfred R. Kenyon,
Superintendent of Schools,
Wayland, Massachusetts.

Dear Mr. Kenyon:

As this is my first report I will endeavor to give a brief resume of a year's work and bring out some of the major objectives.

We have had exhibitions at the Wayland and Cochrane Grammar Schools previous to last year so I feel many people are familiar with the art work. However many do not see more than a pretty picture and fail to realize the amount of work in the fundamentals of color, design, and composition that have been stressed to achieve the final results.

In accordance with new trends in Art Education the program varies from year to year. In view of the ever changing national and civic policies there is an increasing need of understanding the child. We must help him to have initiative and independence. As imagination grows with use, we try to provide ample opportunity for its development and encouragement.

Art in correlation with the regular program endeavors to play a vital part in developing a well rounded citizen in a democracy.

We commence in the lower grades with the study of color, design, printing, composition and perspective. Naturally to bring these phases of art to the comprehension of the younger group it must be in a manner and through activities that will be readily understood by the age level. This is often accomplished by illustration of nursery rhymes, games, observance of holidays and seasonal subjects. With the freehand drawing and coloring we have cut paper lessons. The children make murals, have sand table projects, easel painting and finger painting. The construction work not only results in better coordination for the individual but in project work gives vent to creative expression and an opportunity to work harmoniously with a large group.

In the sixth grade we start with water colors. This is always an interesting adventure to the child. Although a review of color, design, and composition is given at this point it is more aptly absorbed and interpreted because of new approach. Whenever possible we integrate the art with other subjects in the curriculum.

The children in the Junior High have more advanced training in the above mentioned fundamentals. Here we make posters, have more formal work in perspective and composition. Murals are frequently developed in conjunction with other school subjects; as in the case of sand table projects. The students often choose the subject. This creates more interest. These problems require research work on the part of the pupil, ingenuity in development of the project and an opportunity for group activity. I have found at this age that a waning interest in drawing has been stimulated after a three dimensional problem.

At Christmas all grades have problems in construction work. These are primarily for rules in following directions but result in making gifts which can be given at home or to various institutions.

In the high school a class in art is held in conjunction with the household arts department. This gives an elementary course in home decoration the first part of the year and costume design the latter half.

We are indeed fortunate in having a very generous supply of art materials.

The teachers have been very faithful in carrying out the art instructions. Their cooperation means a much stronger art program and I am very grateful for their assistance.

At various times the work of the pupils has been on display at the Public Library. For this privilege may I extend my thanks to the Library Trustees.

May I take this opportunity to express my sincere appreciation to you, the Superintendent, the School Committee, and the townspeople, for the advancement of Art through the channels of the Schools of Wayland.

Respectfully submitted,
MARGUERITE ELLIOTT PEASLEE.

REPORT OF THE SUPERVISOR OF MUSIC

Mr. Alfred R. Kenyon,
Superintendent of Schools,
Wayland, Mass.

Dear Mr. Kenyon:

I hereby submit my first report as Supervisor of Music in the Wayland Schools.

Because every child should be given a rich and beautiful musical experience, a specific and well unified program has been provided and is being carried out with the co-operation of every grade teacher. The major objectives follow:

1. To develop individual power to sing songs of increasing difficulty with a feeling for rhythm, tune, tone and mood.

2. To stimulate the desire for self expression through the creation and notation of original melodies.

3. To foster love for good music by listening to carefully selected music.

4. To motivate the music course by preparation of a demonstration of musical talent.

(It is hoped that next year all grades will be ready to offer a program in public.)

In behalf of all pupils I wish to thank the town for a set of Master Work Records.

I earnestly urge parents to give those of their children with definite musical aptitude the opportunity of studying some musical instrument.

Respectfully submitted,

PAULINE C. SAUNDERS,

REPORT OF SCHOOL PHYSICIAN

Mr. Alfred R. Kenyon,
Superintendent of Wayland Schools,
Wayland, Massachusetts.

Dear Mr. Kenyon :

I hereby have the honor of submitting my seventeenth report as School Physician of Wayland Schools.

Total number of pupils examined 736. As in years past especial attention was given prospective foot-ball candidates.

The following defects covering all the grades were as follows and a comparison with last year is appended.

	1941	1940
Defective tonsils	159	133
Defective glands	13	19
Defective posture	85	49
Defective teeth	160	90
Defective adenoids	40	57

The most disappointing factor in this comparison is the increasing number of defective teeth. When we are informed that a large number of selective service men were rejected on account of poor teeth it behooves parents to take extra vigilance in regard to dental care of their children.

In view of the large number of Scarlet Fever cases in surrounding towns I feel that Wayland has been fortunate in that only a few cases have developed in the schools.

The other contagious diseases of childhood as Whooping-cough, Measles and Chicken-pox have not been prevalent.

Impetigo, Scabies, and Pediculosis have been well controlled.

May I again extend to the faculty and pupils my sincere thanks for their cooperation in this work.

Respectfully submitted,

ERNEST E. SPARKS, M. D.

REPORT OF THE SUPERVISOR OF ATTENDANCE

Mr. Alfred R. Kenyon,
Superintendent of Schools,
Wayland, Mass.

Dear Sir :

During the year I have had fifteen cases of questionable absences reported to me.

Number having no excuse	7
Truants accompanied to school	8

For my report of the School Census. I refer you to the figures on the following page.

Respectfully submitted,

MARY E. McNEIL,
Supervisor of Attendance.

REPORT OF THE TRUSTEES OF THE WAYLAND PUBLIC LIBRARY

With the death of Miss Margaret Wheeler, the Library has lost a loyal and devoted Librarian. Miss Wheeler was appointed in 1903. For thirty-nine years she served the citizens of Wayland in the Library. During this time the Library has maintained a policy of increasing its usefulness and value to the town. Its circulation is greater, more books are available, and for some years it has been open three days a week instead of two.

Miss Wheeler was very much interested in increasing the circulation of non-fiction. She was interested in helping the children of the school to form good reading habits. To familiarize them with the Library, Miss Wheeler for many years arranged an annual Library party.

Miss Wheeler's flower arrangements have added charm during the summer months to our building and have always been appreciated by those who used the Library.

We must announce with our greatest regret, the resignation of Doctor Amos I. Hadley. Doctor Hadley has been elected by the people of the town of Wayland to serve as a Library Trustee since 1906. Since 1909 he has been chairman of the Board. We of the Board of Trustees, know his interest in the organization and the function of the Library and the care which he gave to the selection of books as a member of the book purchasing committee. We are deeply obligated to him for the unselfish use of his time and energy for so many years.

This year the Trustees report the removal of obsolete and worn-out books of fiction, adult and juvenile from both the Main Library and the Cochrane Branch. This is in accordance with good Library practice, in order to prevent the accumulation of useless material. At some time in the future the obsolete non-fiction must also be removed.

No major repairs have been necessary this year. However, it was necessary to employ a dust removing company to

vacuum the books and shelves. For many years the town was fortunate in having a citizen who assumed the financial burden of many of our repairs in whole or in part. We no longer have this aid and to maintain our high standards of neatness and cleanliness it will be necessary to have some work done.

With the assistance of Miss E. Louise Jones of the Department of Education, the Board was able to obtain the advice of Mr. Harry J. Carlsen of the firm of Coolidge and Carlsen, Architects, on the suitability of the basement rooms for library use. Because of his interest in Public Libraries, Mr. Carlsen gave his advice without cost to the town. The rooms can be made ready for use with little expense.

This year the rooms in the basement have been used for practical educational projects and by the American Red Cross.

The Treasurer's report is omitted this year as a separate item. All the material is in the Town Accountant's report and we wish to avoid duplication.

Respectfully submitted,

JAMES R. MARTIN, *Chairman*,

J. SIDNEY STONE, *Treasurer*,

GEORGE BOGREN

ARTHUR K. HALLOCK,

ELIZABETH C. RAYMOND, *Clerk*.

REPORT OF THE WAYLAND BOARD OF PARK COMMISSIONERS FOR THE YEAR 1941

To the Inhabitants of the Town of Wayland:

Through the Park Board the Town now provides facilities for wholesome, year-round outdoor recreation for the children, young people and adults of the Town. During the summer there are facilities for supervised swimming, tennis courts and playgrounds in both Wayland and Cochrasset. In the winter there are skating facilities at the Mill Pond, equipped and maintained with the help of a committee headed by Mr. Hugh Colliton, and the area is lighted at night for the benefit of those who are not able to use it in the day time.

In addition to maintaining these recreational facilities and keeping the ball fields and Town park land in attractive condition, the Board tries to make some improvements each year. This year the park land in Wayland Center was improved by removal of debris and brush and grading, and, with the cooperation of the Selectmen and volunteer helpers, weeds were removed at the Dudley Pond beach. Proper equipment for snow removal at the skating pond was provided (with financial help from the committee headed by Mr. Colliton) and the Parent-Teachers Association donated some new playground equipment. Such donations are much appreciated.

It is financially impossible for the Park Board to provide for paid care of the tennis courts, park land and other park facilities on the scale that is done in larger towns and cities, so the appearance of park land and condition of tennis courts and other facilities depend to a large extent on the thoughtfulness of the people. Many improvements have been made by volunteered work. The Board very much appreciates the help of those who have in this way done their bit in improving the park grounds and equipment and keeping them in good condition.

FRANK S. TARR, *Chairman*,
ROGER E. ELA, *Clerk*,
ELMER W. BIGWOOD.

REPORT OF THE WAYLAND WATER BOARD

To the Inhabitants of the Town of Wayland :

The Board organized with Walter S. Bigwood, Chairman ; Alfred C. Damon, Secretary and Collector ; Alfred A. Lamarine was reappointed Superintendent, and Charles Potvin reappointed Engineer.

At the present time the Water Department is cooperating with the State and Local Defense Departments. If an emergency of any nature should arise, please notify the Department by calling Wayland 266 or Natick 1507-M.

The Board wishes to notify you that they have definitely adopted the plan of placing legally recorded liens on properties where water rates are delinquent. Like tax liens, water liens are placed on the tax bill and are collected by the Tax Collector, with a fee charged for recording and removing the lien. This method of collection avoids the customary unpleasantness of shutting off water, at the same time guaranteeing the water rates due the Town.

Respectfully submitted,
WALTER S. BIGWOOD, *Chairman*,
ALFRED C. DAMON, *Clerk*,
GEORGE BOGREN.

Report of the Superintendent of Water Works

Cochituate, Mass., December 31, 1941.

SERVICES

New Installations	34
Renewed in street	25
Renewed to building	5
Repaired	22

HYDRANTS

New installations, 3; old hydrants replaced with new, 3; broken by automobile, 1. Total hydrants December 31, street 183, private 7.

LEAKS

Service pipes in street, 23; mains, 2.

PUMPING STATION

Gallons of water pumped:

1941	141,829,119
Smallest day	245,000
Largest day	951,000

ALFRED A. LAMARINE

REPORT OF THE CEMETERY COMMISSIONERS

Your Cemetery Commissioners respectfully submit the following report of their service for the year 1941.

One perpetual care gift was received in the course of the year ; the sum of \$100.00 given by Charles F. Whittier for the perpetual care of lot 31, North Cemetery. This gift brings the number of P. C. funds to 125, aggregating \$23,025.00 and providing for the care of 164 lots.

Twenty-seven lot owners paid sums amounting to \$103.00 for the annual care of their lots. Your Commissioners strongly feel that in all cases the care of lots should be a charge upon the owners and not a burden upon the town ; and that all lot owners should provide for the care of their lots by a perpetual care fund, or by the payment, each year, of a fee for the service rendered.

Three small lots have been sold during the year, all in Lakeview Cemetery, for which a total of \$85.00 has been received.

Restoration work in the North Cemetery has been continued as funds have permitted and we are requesting this year an allotment to complete this long delayed work.

In Lakeview Cemetery the last available area has been graded and laid out, and furnishes 22 new lots. This is the ultimate capacity of the cemetery and will eke out the supply of lots to cover the requirements of the next few years.

The card catalogue and index begun two years ago, has been completed and brought up to date, and embodies in compact form all obtainable information concerning each lot and the interments therein. The complete files are made in duplicate, one cabinet being kept by the Superintendent and one by the Clerk, thus safeguarding against loss of the records by fire. The making of these records involved a great amount of work which has been carried through without special appropriation.

ARTHUR W. BRADSHAW, *Chairman*,
MARTIN EDWARDS,
WARREN D. VALENTINE, *Clerk*.
